

NORTHWEST MISSOURI STATE UNIVERSITY

POST-GRADUATION OUTCOMES DATA

2026 REPORT

BASED ON 2024-2025 DATA

TABLE OF CONTENTS

Post-Graduate Overview Data	04
School Of Computer Science And Information Systems	05
Department of Fine and Performing Arts	14
Department of Humanities and Social Sciences	15
Department of Language, Literature, and Writing	18
Department of Mathematics and Statistics	19
Department of Natural Sciences	21
Melvin D. & Valorie G. Booth School of Business	24
School Agricultural Sciences	29
School of Communication and Mass Media	31
School of Education	33
School of Health Sciences and Wellness	44

POST-GRADUATION DATA

2024-2025

Purpose

As an educational institution that strives to prepare students for successful careers, it is important to continuously evaluate the post-graduation status of Northwest Missouri State University's graduates. Career Services surveys graduates and organizes the data to provide stakeholders with the most accurate view possible of initial employment and continuing education statistics. The data in this report was collected within the industry standard six month timeframe.

Methodology

At the end of each academic semester, graduates have the option to report their post-graduation status via an electronic survey that is emailed on a rolling schedule via the Office of Institutional Research.

The graduate has the option to select from a variety of post-graduation statuses including employed, continuing education, post-graduate internship, seeking employment, military services, not employed and not seeking. If the graduate indicates an employed/post-graduate internship status, they are asked to indicate the job title, company, city, and state of the employers as well as the starting salary. Graduates continuing education are asked to disclose their program of study and institution they plan to attend. Military services status request branch and rank.

Students who indicate they are seeking employment after graduation are contacted via email or phone to determine how Career Services can best aid them in their job search.

Five months after graduation, the responses are totaled, and Career Services conducts additional social media and faculty reach-outs to determine whether new graduates have shared employment information in these public venues. If no response is received within six months after graduation, the designation of no response is entered into the report.

Data Analysis

Undergraduate and Graduate degree data were analyzed separately. The data is further divided by school, department, and major. Totals are calculated for each major, department, and school for the entire academic year. In accordance with FERPA guidelines, graduate responses are reported without disclosing the individual's identity.

Post-Graduation Data

2024-2025

Historical Summary of Placement by Year:

UNDERGRADUATE

Status	2013-2014	2014-2015	2015-2016	2016-2017	2017-2018	2018-2019	2019-2020	2020-2021	2021-2022	2022-2023	2023-2024
